

HUBER+SUHNER® JUMPER CABLES

Description

HUBER+SUHNER SUCOFEEED assemblies are factory made jumper cable assemblies, ready to use, and available as standardised or as customised types.

HUBER+SUHNER SUCOFEEED jumpers are made of either 1/2" highflex or 1/2" standard foam dielectric corrugated coaxial cable, provided with the most commonly used N or DIN 7/16 QUICK-FIT connectors and can be supplied in various lengths between 1 m and 3 m or according to the customers needs.

HUBER+SUHNER SUCOFEEED assemblies are designed for long service life, indoor and outdoor applications and provide best efficiency for the signal transfer between transmission equipment and feeders or between feeders and antennas.

Features

- Water proof IP68 (1m / 24h / RT) according to IEC 60529
- Passive intermodulation products (3rd order) ≤ -155 dBc
- Return loss performance DC up to 2.5 GHz ≥ 24 dB
- optimised up to 2.5 GHz to meet the UMTS requirements
- No storage of cables and connectors necessary
- Customised assemblies in special lengths or with specific design according to customers demands

For further information please contact directly the next HUBER+SUHNER agent in your country or our product manager Urs Zuberbühler, 0041 71 353 46 01, e-mail uzuberbuehler@hubersuhner.com.
